I love tech. They say any sufficiently advanced tech is like magic to the uninitiated, and who doesn't want to be a Wizard? I want to use my love of a problem elegantly solved to put bread on the table and magic into the world. -- Daniel John Keefer.

PROJECTS

Party Playlist Maker v2

<https://ppmv2.netlify.app/>

Full Stack Developer | MERN | Oct, 2020 – Oct, 2020

- Deployed back end API to Heroku
- Deployed front end React to Netlify
- Rewrote existing code with new tools, moved from vanilla JS to a MERN stack
- Built over three days for a Coder Academy Hackathon
- Styled with Bulma CSS framework

Plus Points Calculator

<https://ppcalc.herokuapp.com/>

-

THINGS I LIKE

Being a Dad
and also a Husband
Dungeons & Dragons
Star Trek
Overwatch
Linux Desktops

ABOUT ME

I am a nerd, armchair philosopher and loving family man with a passion for Fantasy, SciFi & Cyberpunk. I have been playing Dungeons and Dragons since I was 13.

I am highly motivated to provide a comfortable living for my wife and two girls, they inspire me to be my best self.

LEYLINE ESPORTS

Founding Member and Club
Leader | Jun, 2018 – Dec, 2019

Leyline Esports was an Overwatch Club for amateur players. Players form teams of 6-12 players and train twice a week to play in the Amateur Australian Overwatch League on a Saturday or Sunday. At the peak of my leadership Leyline Esports had five teams and a training program that introduced new players to competitive Esports. We also participated in an inter club effort to raise \$600 in a charity stream as a bush fire relief effort. When I left the club it had 200+ members and my gamertag is still recognised in the community today.

EDUCATION

Coder Academy

Diploma of IT, Web Page, Digital/Multimedia and Information Resources Design | Feb, 2020 – Feb, 2021

- Boot-camp style course teaching the core skills of web design and development
- The core skills covered are MERN stack, SQL/NoSQL databases, Ruby on Rails and HTML/CSS
- I have also gained skills in Test Driven development, Git workflows, Agile methodologies and many other topics

RMIT

Bachelor of Information Technology (Not Completed)
| Feb, 2016 – Oct, 2017

- Completed one and half years of study before deferring due to financial hardship
 - Study covered computer science fundamentals like networking, computer security and introduction to programming
-
